

ENCORE TRAINING: Minimize Risk and Increase Productivity

Encore, the leader in electronic discovery and hosted review, now offers on-site and on-line skills training for many electronic discovery applications and processes

Encore training solutions are customized to help you:

- **AVOID DATA DISASTERS.**
Better understanding of technologies and backup protocols minimizes the chance of accidental data destruction.
- **INCREASE EFFICIENCY.**
Better information up front can save many hours of review or processing time. Saving only a few seconds per document can add up to hours and days over a large document set.
- **IMPROVE ACCURACY.**
Better training limits mismarking of documents and helps team members unearth and solve problems on the spot.

Increased speed and accuracy results in outstanding ROI and provides a real competitive advantage.

Customized sessions are available either on site or via webinar. Recorded webinars and public sessions are also available. Topics include:

- Technology & Software Skills
- Business Process
- Electronic Discovery
- Web Repositories
- Continuing Legal Education

Learn how Encore training can minimize cycle time, project cost and electronic discovery risk.

Knowledge. Innovation. Results.
